The Do No Harm Dog Training™ Manual was designed as my own personal guide for teaching basic manners classes, and evolved into a reference manual for my private behavior consultations. Created as a practical guide for either or both training formats, it is also helpful for pet parents who want an inside look at dog training and behavior, as well as for those who seek force-free solutions for ...

Animal training is the act of teaching animals specific responses to specific conditions or stimuli. Training may be for purposes such as companionship, detection, protection, and entertainment. The type of training an animal receives will vary depending on the training method used, and the purpose for training the animal. For example, a seeing eye dog will be trained to achieve a different goal ...

Why dynamic? Walking is a complex function. When we talk about dynamic gait training we refer to the often unobserved but significant shifts of body and weight that occur in typical gait patterns. In the therapy community there is a growing consensus that a well-positioned pelvis in combination with dynamic movement is critical to successful gait training.
