As cybersecurity has become more complex, traditional methods do not account for the wide range of issues related to securing corporate data and handling privacy concerns. New technology, improved processes and broad workforce education are all required for a modern security posture. Adopting a new approach requires cultural change within an organization, but it also requires a diverse set of ...

The National Health Expenditure Accounts (NHEA) are the official estimates of total health care spending in the United States. Dating back to 1960, the NHEA measures annual U.S. expenditures for health care goods and services, public health activities, government administration, the net cost of health insurance, and investment related to health care.
