TR Regsiter New Parts October 2016 - TR Register

Fuel injection is the introduction of fuel in an internal combustion engine, most commonly automotive engines, by the means of an injector.. All diesel engines use fuel injection by design. Petrol engines can use gasoline direct injection, where the fuel is directly delivered into the combustion chamber, or indirect injection where the fuel is mixed with air before the intake stroke.

Fuel injection - Wikipedia

The Supercharger. Our system uses an Autorotor supercharger of unsurpassed quality, designed and built in Sweden. It is a positive displacement, twin rotor, Lyshom principle supercharger of approximately one liter displacement.
