TROPICAL AGRICULTURE - WIKIPEDIA

tropical green pdf

"Tropical" is sometimes used in a general sense for a tropical climate to mean warm to hot and moist year-round, often with the sense of lush vegetation.. Many tropical areas have a dry and wet season. The wet season, rainy season or green season is the time of year, ranging from one or more months, when most of the average annual rainfall in a region falls.

Tropics - Wikipedia

Worldwide more human beings gain their livelihood from agriculture than any other endeavor; the majority are self-employed subsistence farmers living in the tropics [citation needed].While growing food for local consumption is the core of tropical agriculture, cash crops (normally crops grown for export) are also included in the definition.. When people discuss the tropics, it is normal to use ...
